Vassilis Tsabropoulos  
ELEISON

"Eleison" is the long expected, by the audience and the critics, new world-wide release of the internationally acclaimed pianist, composer and conductor Vassilis Tsabropoulos. Having echoes from Tsabropoulos' previous distinguish albums ("Akroasis", "Chant, Hymns and Dances", "Melos", all released by ECM). "Eleison" explores again in depth the roots of ancient music and the mysterious nature of sacred Byzantine music. This time the composer is joined by the very gifted female vocalist of sacred music Nektaria Karantzi.

The cycle of these new compositions for piano and voice seems to be a point of completion of the composer's wandering in a particularly colorful but unpretentious music world, which Vassilis Tsabropoulos serves and highlights masterfully through his recordings.

The "Eleison" is available on the largest music stores, both online and off internationally.

## TSABROPOULOS IN CONCERT

MSO records presents the new international digital release of the acclaimed Greek pianist, conductor and composer Vassilis Tsabropoulos. A fascinating new recording of the versatile pianist captured in a live recital.

A virtuoso pianist, Tsabropoulos, was introduced in the international scene mainly as a composer through his deeply imaginative and intellectual music for piano, recorded successfully since 2000 by the German label ECM records. In this rare recording, presented by the new founded classic label MSO records, Vassilis Tsabropoulos explores the late Bagatelles op.126 of Beethoven and the colorful Davidsbündlertänze of Schumann. His playing combines a remarkable sense of simplicity and warmth, without exaggerations in the musical expression, an approach quite familiar on his own music.

The new worldwide album is currently available on the largest digital music stores and will be released physically during the autumn 2016.
